

I agree whole heartily with Senator Dorgan when he said today, "Seldom have I seen a regulatory agency cave in so completely to the big economic interests. That's exactly what happened today with the FCC rules. And Chairman Powell kept suggesting slight modifications. It's not slight at all. This is a big deal. It's going to affect what the American people can see, can hear, can read."

I would like to put in my opinion that the new rules should be reversed.
